

Internationally recognized for our expertise in cartons, labels, leaflets, intelligent packaging, pouching, blistering, vial filling, cold chain and secondary packaging, as well as medication dispensing and delivery products for pharmacy, hospitals and long-term care, Jones is your one-stop integrated packaging solution partner.

More options. Less complexity.

For more than 135 years, putting customers first has been our priority. And that's why our customers keep coming back – they understand the value of working with a partner who is committed not only to providing outstanding service and end-to-end packaging solutions, but also one who simplifies the process.

It's what we call the Jones advantage.

Since our founding days, we have been at the forefront of identifying and responding to important market needs and creating opportunities for our customers. From bringing to Canada the first pre-gummed label stock to increase efficiency in turn-of-the-century apothecaries to introducing the first child safety vial to Canadian pharmacies, we have firmly established a commitment to bringing innovation to market early on.

Today, we are a global leader in delivering leading-edge packaging and medication dispensing solutions. Our range of products and services is expansive, and includes a technology portfolio complete with mobile and internet-connected packaging solutions to enhance patient safety, consumer engagement and product integrity.

Our customers include some of the most recognized global pharmaceutical and consumer brands, and we support many of the largest pharmacy groups and independent pharmacies, hospitals and long-term care facilities across Canada and Europe. Whether large or small, we deliver simplified, customer-focused solutions to meet each company's specific needs.

Jones - Proud to be first Identifying and responding to market needs

- 1885** - First pre-gummed labels in Canada — a precursor to today's sophisticated pressure sensitive labels
- 1905** - First mechanical carton folder
- 1970s** - Introduced first child safety vial to Canadian pharmacy market
- 1980s** - Co-developed a blister card designed for multi-med regimes — adherence card is born
- 1987** - First Heidelberg CD press in Canada
- 1995** - Designed first dual web laser prescription label for Canadian market
- 1996** - First folding carton converter in Canada to certify to ISO9000
- 2002** - First label converter in Canada to adopt 100% video inspection for in-line finishing
- 2004** - First Canadian carton converter to certify to ISO14001:2004
- 2006** - Became first and only North American member of Europe-based PharmaPact
- 2007** - First North American packaging converter to hold sustainability conference
- 2008** - First company in the world to certify to PACsecure food safety packaging protocol
- 2009** - First in the world to acquire a uniquely configured, state-of-the-art, 13-station, nine-colour Komori press
- 2016** - First to successfully integrate and validate dual-sensing Thinfilm NFC OpenSense™ tags for folding cartons on high-speed production lines

Our alliances with the most widely respected international brand and pharmaceutical packaging organizations not only give us a high profile within our industry and around the world, but also provide Jones with the opportunity to be the first to bring new ideas and best practices to the Canadian and North American markets.

From enhanced service offerings, improved systems and new technologies to full design and product development support, everything we do is driven by our commitment to simplify the process for our customers.

One partner – so many possibilities.

Packaging

Unique to Jones is our ability to take your packaging from concept to consumer. This integrated approach includes the services of our **Printed Packaging** team that offers design and product development support and full production capabilities for:

- Folding cartons
- Pressure sensitive labels
- Inserts and leaflets
- Intelligent packaging

... helping you maximize your brand's shelf presence, while our **Contract Packaging** team provides product and material consultation to ensure speed to market for:

- Blister packaging
- Pouching (sampling)
- Vial filling
- Cold chain storage
- Secondary packaging

Together we approach every project as an opportunity to provide customer-specific packaging solutions focused on quality, flexibility and cost-effectiveness.

Healthcare

With our roots firmly established in the healthcare sector, Jones has been a proud and long-time leader in driving innovation and patient safety in the Canadian and European medication dispensing markets.

And, with a full line of customizable quality products for pharmacies, hospitals and long-term care, Jones Healthcare offers a one-stop shopping experience for maximum convenience and minimum complexity:

- Prescription vials
- Bottles and ointment jars
- Adherence packaging
- Prescription labels
- Bags
- Operational supplies

Plus, our customers benefit from the support of a dedicated team that provides unparalleled personalized attention and product knowledge.

The Jones Experience

While our product offering is broad in scope, we share a unified commitment to service, safety, compliance and efficiency across our entire organization. By working in tandem with our customers, we facilitate and simplify the process to ensure high-quality outcomes and positive experiences. Quite simply, we take the time to understand your business so we can deliver creative packaging solutions sure to give your brand a competitive edge.

Let us show you how easy it is to trust your packaging business to Jones.
