

Qube high-capacity adherence packaging

When bigger is better

Easy fill and check, high-capacity blister card for multiple medications and vitamins.

- High-capacity, square-bottom blisters
- Clear view of medications for easy fill and check
- Larger morning and night blisters, since most medications are dispensed at breakfast and bedtime
- Accommodates large pharmacy labels or up to 12 regular labels
- Clear instructions make it easy for patients to use
- Customizable card to maximize branding opportunities
- Available for automation applications
- Potential to capture incremental vitamin sales for customers looking to fully utilize the Qube’s dose management capabilities
